To whom it may concern

1st March 2004

Dear Sir or Madam,

Re: FCC Type Approval – FCC ID: KLS-S4-1 Confirmation Number: EA193536

With reference to the E-mail from Steven Dayhoff, dated 24th February 2004, it is confirmed that 2 photographs (top & bottom) of the printed circuit board were uploaded via the Internet on 1st March 2004.

Also, McMurdo's Sales and Marketing have now introduced a third variant to the SART S4 product range e.g. Skanti SART II. As the FCC Approval is now also required to cover all of the product range e.g. McMurdo S4 Rescue SART, Sailor SART II and Skanti SART II, a new Equipment Label drawing (86-426-XXXD Issue.3) was also uploaded via the Internet on 1st March 2004.

As the introduction of the third variant affected the Lloyds Register EC MED & SOLAS Approval Certificates, a new application was made to Lloyds Register. As the 3 variants are identical, except for the product labels, new Lloyds Register approval certificates were quickly issued and uploaded via the Internet on 1st March 2004.

It was also noted on the FCC OET website on 18th February 2004, that external photographs were missing from the initial approval submission and 4 photographs were uploaded via the Internet on 18th February 2004.

Should you have any queries or require additional information, please do not hesitate to contact the undersigned.

Yours faithfully

Derek Carr
Approval Administrator
