## Navi light Glo

**Glow in the dark torch**  
**Waterproof 200m**  
**Superbright, long lasting torchlight**

The time you need a torch most is when it's dark and you can't find it. With its glowing body the Navi light Glo is instantly found in the dark. The torch actually illuminates its handle for up to 8 hours after just 10 minutes of daylight.

Navi light Glo, part of the Navi light range from Navisafe, is fitted with a six LED cluster for outstanding torch performance coupled with low power consumption. The LED cluster additionally has a strobe light function making it an excellent beacon in an emergency situation.

Navi light Glo has a magnetic switch and a double rubber seal ensuring full water resistance. Built in a shock resistant body with wrist/neck strap Navi Light Glo is the perfect accessory whether you're out camping or around the home.

### Unique New Technology:

Navi light Glo has a "Glow in the Dark" system that is based on strontium technology and our colours glow up to 7 times brighter than old style zinc sulphide materials and can keep glowing for over 8 hours on each recharge of light.

### Technical specifications:

- Weight: 122g (Unit including batteries)
- Size: Diameter: 40mm Length: 105mm
- Water proof 200 m
- Batteries: 2 x AA
- LED: 6 White LED
- Switch: Magnetic

  1. 50%
  2. 100%
  3. Flashing light
- Glow time: Up to 8 hours after 10 minute in daylight

### There are so many uses and needs for the Navi light Glo!

#### CAMPING & OUTDOORS:

Ideal for Camping and other outdoor pursuits such as fishing. Used in conjunction with the Night Vision Red Cap the Navi light Glo becomes a useful night vision and reading torch.

#### DIVING:

The Navi light Glo is the ideal recreational dive torch. The tough body, magnetic switch and double 'O' ring seals make it watertight to up to 200m. The glow in the dark body makes the Navi light Glo easy to see in dark under water conditions.

#### CAVING:

The long battery life, low power setting and glow in the dark body make the Navi light Glo the ideal companion for caving.

#### WALKING, HIKING & CLIMBING:

No explorer should leave home without a Navi light Glo. Because the body of the torch glows, it's easy to find when it's dark. Used in conjunction with the night vision red cap, it becomes a versatile night vision and reading torch. The emergency strobe setting makes the Navi light Glo an essential 24 hour outdoor location device.

#### HOME & DOMESTIC USE:

The Navi light Glo is a useful home safety device. Because the body of the torch glows, it makes it easy to find in either a power cut situation or even when kept on a bedside table for use at night or in the dark.

#### AND MANY MORE USES:

The Navi light Glo is a useful in the car, at work and in so many other situations.
