Denmark

Acceptance of SIRIUS One LRIT transceiver on NOR/NIS vessels

The Norwegian Maritime Administration accepts the Sirius One LRIT transceiver manufactured by Polaris Electronics AS of Denmark to be installed for use on NOR and NIS registered vessels. The system has been found acceptable for the purpose of complying with the requirements of SOLAS V/19-1, under the provision of MSC.263(84), MSC.1/Circ.1307 and IMO A.694

Regarding implementation of the system on board the NMA refers to the Norwegian national Ship Safety and Security Act of 16 February 2007 No.9 Chapter 2, Section 6 relating to General duties of the company, and Chapter 3, Section 9 Technical and operational safety.

The following documentation shall be carried on board and be presented upon request during port state control or other authorized vessel inspections:

- Declaration from an ASP that the system is installed according to current regulations, performance tested and found in full functioning order
- Declaration from the owner that the officers on watch have received training in accordance with STCW-78 as amended, regulation V14.1.4

Yours faithfully,

Lars Alvestad
