## To Whom It May Concern

This is to confirm that the Sirius-3 NAVTEX receiver meets the requirements S.24 of the Ship Station (Radio) Technical Regulations, 1999 (as amended from time-to-time), thus the equipment is compliant with the Canada Minister of Transport's requirements.

Transport Canada will accept a Document of Compliance issued by an EU MED notified body. (MED-B EC Type Approval certificate no. MED-B 10043)  
For the purpose of inspection of Canadian vessels, a copy of the Document of Compliance should be kept onboard and readily accessible.

Ref. attached copy of mail from Mr. Sam Ryan, Canadian Coast Guard, of November 19, 2010

A handwritten signature in blue ink that reads 'Einar Midtgard'. The signature is stylized with a large, sweeping 'S' at the end.

Subject: CCG and NAVTEX receivers

Hello Mr. Midtgard,

As long as the subject equipment meets the requirements S.24 of the Ship Station (Radio) Technical Regulations, 1999 (as amended from time-to-time), then the equipment is compliant with the Minister of Transport's requirements. [http://laws-lois.justice.gc.ca/eng/SOR-2000-265/page-7.html#anchorbo-ga:s\\_24](http://laws-lois.justice.gc.ca/eng/SOR-2000-265/page-7.html#anchorbo-ga:s_24)

Transport Canada will accept a Document of Compliance issued by an EU MED notified body. For the purpose of inspection of Canadian vessels, a copy of the Document of Compliance should be kept onboard and readily accessible. There is no need to send us a copy of your test reports or certificates.

I've cced Mr. Russ Renaud from Transport Canada, since Transport Canada is the regulator, and the Canadian Coast Guard is the service provider.

If you have any other questions please feel free to give me a call or e-mail.

Best regards,

Sam Ryan
