

Headset adapter for Sailor 6000 series radios

This solution is "Plug & Play", based on the Peltor FL5001 PTT adapter, modified to match impedance and levels of the Sailor 6000 series radios. This adaptor is a handheld PTT with belt clip, to which you connect your Peltor MT7H79 series headset.

Nexus connector for Peltor Headset

Ideal to be used in noisy areas and on board e.g. rescue and RIB boats, where a Sailor 6000 series radio is installed.

P/N 406200-POL, Headset adapter for Peltor to SP62xx w/2,5m cable.
(Peltor headset is not included)
