SiriusOne approval

./.
Approval of SiriusOne Transceiver to work with e-log client version 13 (Vtrack) and version 14 (HTTP) for Danish fishingvessels for transmission of electronic logbooks and VMS data in accordance to Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Community control system for ensuring compliance with the rules of the common fisheries policy Article 9 and Article 15.

It's the sole responsibility of the hardware manufacture to develop, maintain and support drivers, firmware and transmission layer services and API's to communicate between the e-log client, transceiver and The Danish Fisheries Agency Fisheries Monitoring Center (FMC) API in accordance to the API description on Fiskeristyrelsen.dk

The Danish Fisheries Agency can at any time revoke this approval, with 2 weeks notification.
