Antenna Cover Solutions for Citadel Installations - Now Available

Dear Partner,
Back in January, we introduced our new antenna solutions for citadel installations. They are now available, and we have several units in stock.

As mentioned, we offer two alternatives: one for LT-3130 AU and one for LT-4130 AU.

Each kit will include:

- Housing cover
- Antenna mounting bracket
- Rubber pad
- Housing base
- Pigtail cable
- Assembly drawing

You can find assembly drawings and price list enclosed with this Partner Briefing.

Be aware that we have these covers made by a third-party, so delivery time can easily change depending on demand.

We strongly suggest you place your orders in good time.

Best Regards

Lars Thrane A/S
